Equality Impact Assessment Screening Template

This document provides a framework for an Initial Equality Assessment for initiatives including policies, procedures and operations. This framework will allow us to systematically judge the relevance to Gwent Police's public equality duties and also the potential level of impact to our communities.

Responses to this screening template will be scored on three dimensions.

1. The extent to which the initiative is relevant to our public duties (1= neutral to 3= highly relevant)
2. The level of impact the initiative will have on our communities (Low =1, High=3)
3. The extent to which the initiative will have an impact on our communities. (Low =1, High=3)

If a score of over 44 is achieved the proposal is deemed to be relevant to our equality duties and have the potential to have a significant negative disproportionate effect on our communities. Therefore, we need to conduct a Full equality impact in order to examine the potential impact further.

Scoring

Score	Level of Impact	Level of EIA
22-44	Low-medium	Initial
44-66	Medium-high	Full

Initially we will prioritise conducting equality impact assessment for initiatives which score over 50+

4.0. Are there any aspects of the initiative, including how it is delivered, or accessed, that could contribute to inequality?

4.1	Race	2	3	Adaptations will be made as issues arise ie Ramadan low sugar energy levels etc
4.2	Gender (including transgender)	2	1	Adaptations will be made to the delivery of training where appropriate ie adjustment of mannequins

-----	--	---	---	--------------

5 Does the initiative have a negative impact upon the lives of people, including members of particular communities and groups? If it does have a negative impact, what evidence can be provided that demonstrates this could be a justifiable course of action?

E.g. The use of stop and search powers under section 44 of the Terrorism Act – if it is proportionate, intelligence led and details of all stops are recorded. Although such an example may be justified under the equality legislation, the implementation of such activities will need to ensure that negative impact is minimised (a full equality impact assessment will allow us to examine how we can do this successfully)

Is a Full EIA required?

The answers given in this screening document have been scored on the level of relevance to Gwent Police's equality general duties, and the level and extent of impact initiative has.

The scores will determine if further consideration is need in the development of the initiative, in which affected communities will be consulted with in order to examine their concerns further and identify how Gwent Police can minimise any potential impact and also maximise Gwent policies opportunities to positively engage with our Equality Duties.
