GUIDANCE FOR **TAXI DRIVERS**

Always trust your instincts. Refuse a fare if you have any doubts about your safety.

Minimise the amount of cash you carry or consider pre-payment where possible.

Make sure your controller or a trusted adult knows where you are via a radio, lone worker device or even app on your phone.

Use your verbal skills and body language to de-escalate any confrontational situations if you can.

Call police immediately on 999 if you feel in imminent danger.

Fitting a convex mirror that gives you a full view of the rear of your car will help you to see what a passenger directly behind you is doing.

Installing CCTV cameras has been shown to lead to reduced threats and violence against drivers.

Report all non-urgent incidents to police at
Report a crime | Gwent Police or on 101

Remember to write down everything about the incident – a description of the passenger, what they said and did.

If you want to contact **Gwent Police** about another matter or to report a crime you can direct message us on **social media** or call **101** or **999** in an emergency.
